LED UP TOWER TABLE

LEDUP TOWER TABLE

The LEDUP TOWER table is a counter that lights up on all four sides. Structurally, it is a small LEDUP TOWER, but a product in its own right. At trade shows and events, in showrooms and at the point of sale, it becomes an eye-catcher from every side – even when free-standing.

KEY FEATURES

01
LIT ON ALL SIDES
Two LED lamps at a 45° angle cast even, shadow-free light on every graphic.

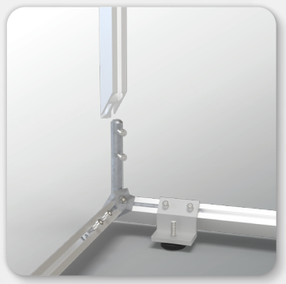

02
QUICK ASSEMBLY
One person sets everything up in about 10 minutes, with a TX screwdriver and the enclosed instructions.

03
COMPACT TRANSPORT
A wheeled ABS case that fits in any car gives every part its own fixed place.

04
CHOICE OF COUNTER TOP
Frosted acrylic or black HPL: both versions are held to the frame by magnets and sit firmly in seconds.

05
ADJUSTABLE FEET
The counter can be precisely levelled on uneven floors – without shims or tools.

06
GRAPHIC CHANGES
Four graphics, 50 x 110 cm each, in LTEX or Frametex are held by a rubber lip and can be swapped.

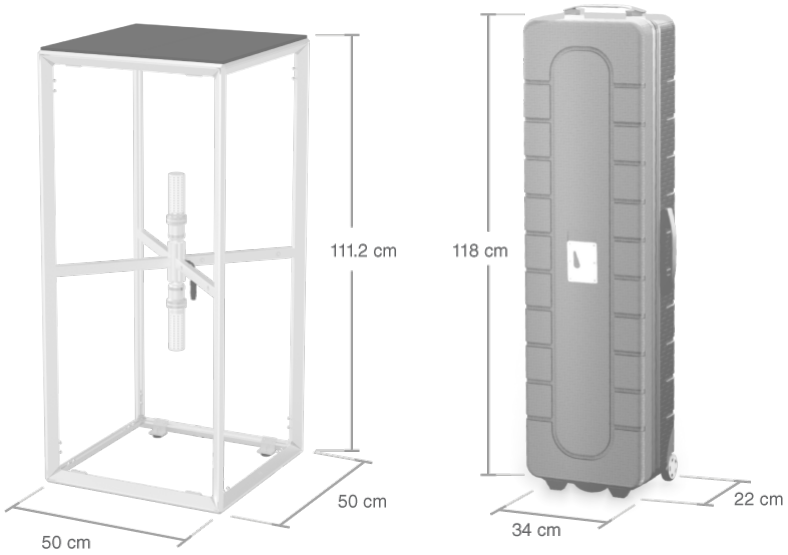

RoHS CE
